

New A/T Trans Fluid for 2005MY Sorento

In 2005MY Sorento vehicles, a five-speed automatic transmission will replace the current four-speed A/T design. A new type of ATF (automatic transmission fluid) is specified for the five-speed automatic transmission. The new fluid should be applied when servicing, repairing, or replacing the automatic transmission. The use of a non-specified fluid could result in a transmission malfunction or failure and may void warranty coverage or reimbursement.

The new ATF will be available through Kia by August in packages of 12. Pricing, availability and ordering instructions will be announced shortly.

If it is necessary to add ATF to a 2005 MY Sorento, and RED-1 ATF is not available, only "Nissan Matic J"TM automatic transmission fluid should be applied as a substitute.

Description	Minimum Order Quantity	P/N
Kia RED-1 Automatic Transmission Fluid	12/Case	Ordering Details & P/N will be Available Soon
